

Dear Verdun Families,

It is with great joy that we welcome you back from March Break. We do hope that you have had a good week spent with family and friends.

We are now in our final term together for the 2016-17 school year, and I would like to take this opportunity to remind students and families that Term 3 is worth 60% of the school year. It is therefore extremely important for students to be present at school, to arrive on time and to fully engage in school work and studying in order to be as successful as possible.

We look forward to continuing our work with you throughout this final term, and to the many upcoming activities and events in the months ahead. Please take a moment to review the following important dates below.

Sincerely,
S. Luther
Principal
